

SH500 Locking Hook

Instructional Tag

Directs customers to ask for assistance

Locking Base

Secures hook to wall board; hook can only be removed with patented OM Key™

Enhanced Mechanics

Internal shuttle and spring mechanism is up to 10x more secure than previous secure hooks

Locking Front End

Can only be unlocked with patented OM Key™—but open design allows customers to feel and examine the merchandise; unlocks quickly and easily

The strength of InVue's SH500 Series is our innovative, easy-to-use key. Its unique shape and patented magnetics provide maximum security, and it is designed specifically for on-the-floor associate use.

The Orthogonal Magnet (OM) generates a perpendicular force that provides a more secure interface with the new Secure Fixtures socket and shuttle locking mechanism.
