

Vitag X30 (AM/RF)

Security tag

Security: Standard **Detection Range:** High

Vitag X30 requires a strong Superlock* magnetic detacher for pin removal. This tag accepts smooth or grooved pins. The oversized pin head resists pin shaft tampering.

Flexible and scalable with four tags in one. Use as a clothing tag or you can pick from four different compatible pins: clear, ink, versa pin or a lanyard for attaching to accessories.

Oversized Security Pin-Head. Compared to standard tags that have small pin heads we increased the pin head size to 30mm, double the size of normal pins. This feature reduces the chance of a shoplifter cutting the pin shaft.

Pin Parking

Oversized Security Pin Head

Lanyard Ready

Pin Park. No need to separate the tag and pin when in storage. We provide a special hole to temporarily park the pin on the tag when it's not on a garment. Faster reapplication, no lost pins and no fingers being pierced. Pin parking ensures no pins are left on sold garments.

Smooth Pin. The tag accepts smooth or grooved pins. The smooth pin will not damage threads like grooved pins do.

Ink Pin. At any stage security can be dramatically upgraded by replacing the standard pin with the addition of our ink filled pin. Nothing stops a professional shoplifter like the 25mm round ink pin.

Features

Minimum Order QTY	500 Units
Includes Pin	No
Ink Feature	No
Ink Pin Compatible	Yes
Pin Parking	Yes
RFID Ready	Yes
Size	63 x 30mm
