

CT200 Audio Jack Extender
CTK1P008

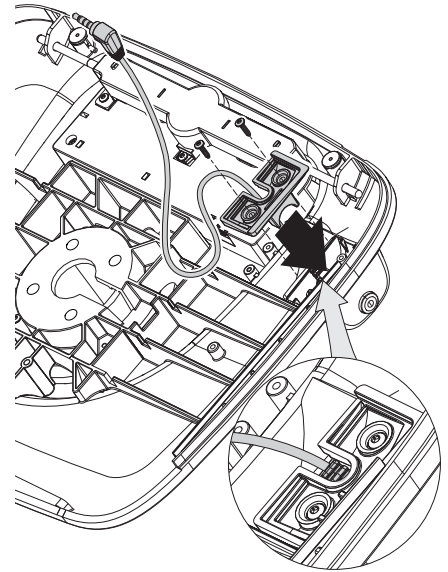

- 1** Remove three Phillips screws and the tablet frame cover plate.

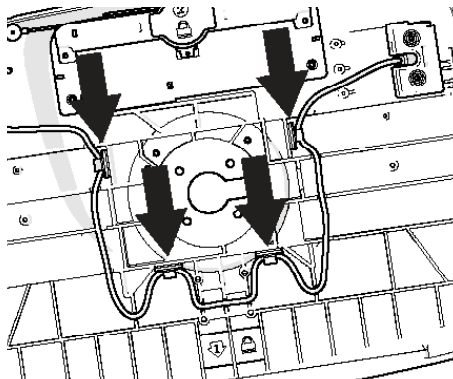

- 2** Feed audio cable into frame from rear. Press the audio jack extender housing to the back of the frame covering the opening.

- 3** Place the audio jack extender plate into the inside of the frame as shown. Position the audio cable inside the “U” shaped opening of plate and secure with two M2.5 screws provided.

- 4** Route the audio cable to the location of audio jack on tablet. Place the audio cable in channels using 4 clips to prevent pinching of the audio cable by tablet insert.
