Wall Mount and Wall Mount Tilt Option
CTK1P007

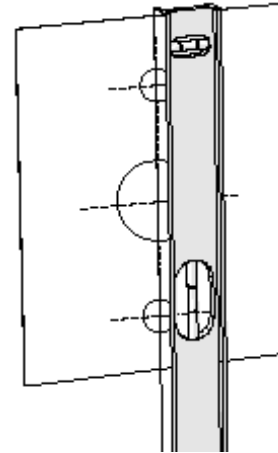

VESA 75mm x 75mm Mount

If using a third party VESA 75mm x 75mm Mount, use these four holes.

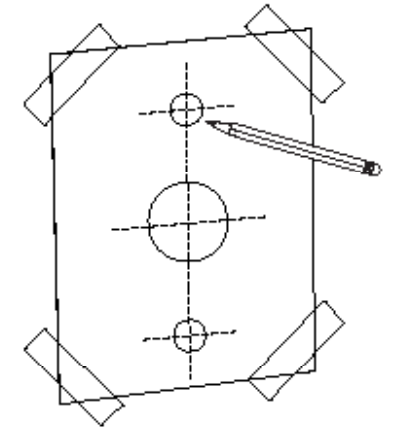

Wall Mount

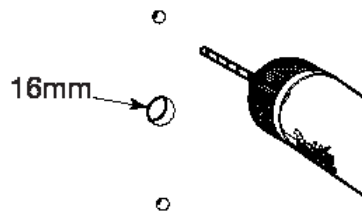

- 1 Locate height and using the Wall Mount Drill template and level make sure the holes are vertical.

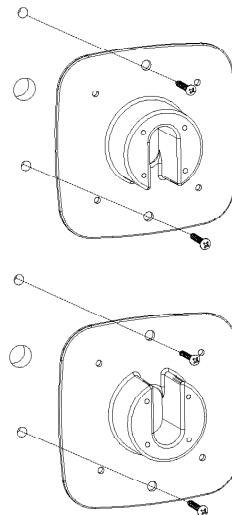

- 2 Tape template to wall and mark the center of the holes.

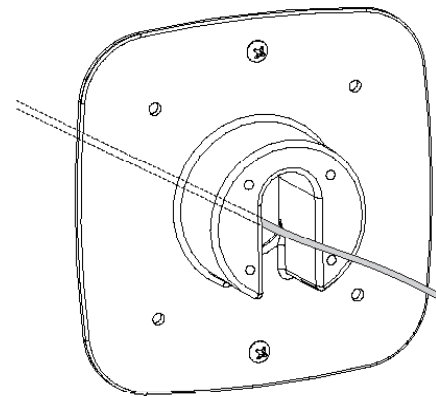

- 3 Drill the top and bottom screw holes for screws not supplied that are appropriate for your wall material. Drill center hole (16mm) for hidden cable installations.

- 4 Orient the Wall Mount bracket with slot facing the direction the power cable is coming from.

- 5A Hidden Cable: Route cable through center hole in wall and slot in wall mount bracket.

If using tilt option see tilt instructions first. See tablet frame instructions now.
