Handheld Arm Bracket
and Mounting Plate
DRH203

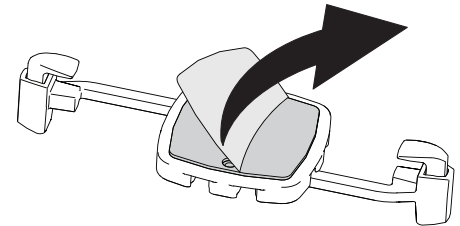

- 1 Wipe device with alcohol wipe provided. **Let it dry completely.**

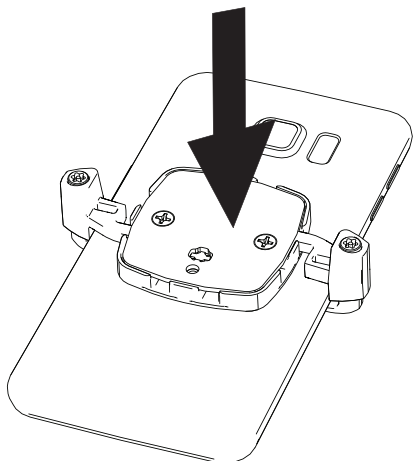

- 2 Use a Phillips screwdriver to loosen screws on mounting plate (do not remove screws). Slide bracket arms outward.

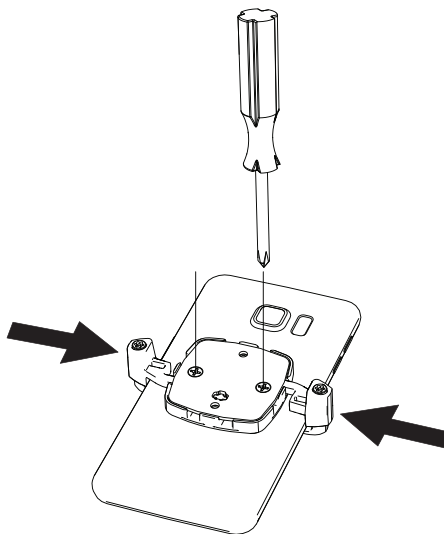

- 3 Remove clear film from adhesive on mounting plate.

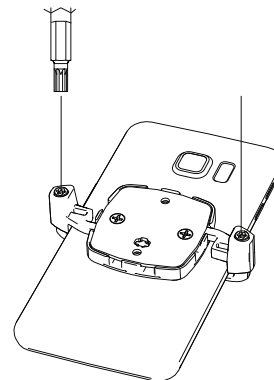

- 4 Center mounting bracket onto back of merchandise. Press mounting bracket firmly to device for 10 seconds.

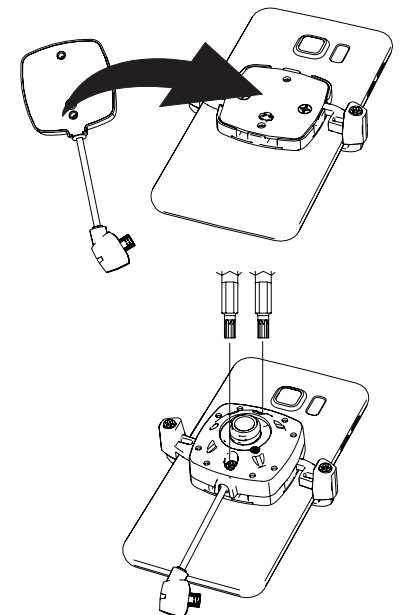

- 5 Slide bracket arms around device. Use a Phillips screwdriver to fully tighten screws on mounting plate.

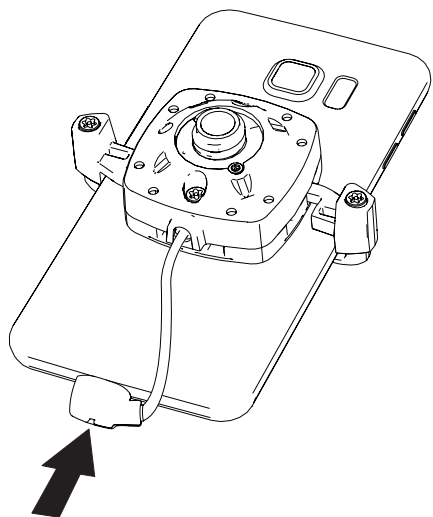

- 6 Use T20 bit to tighten screws on bracket arms. **Do not overtighten.**

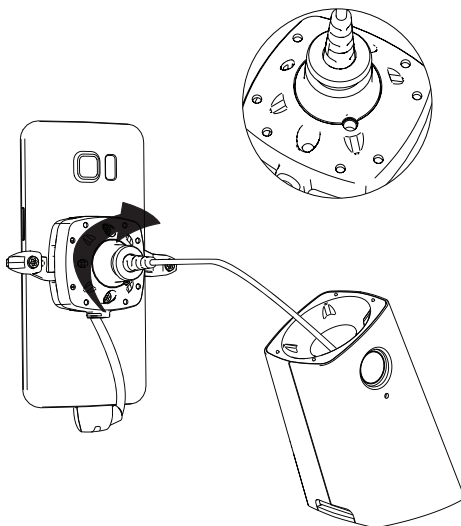

- 7 Use T20 bit to screw sensor to mounting plate.

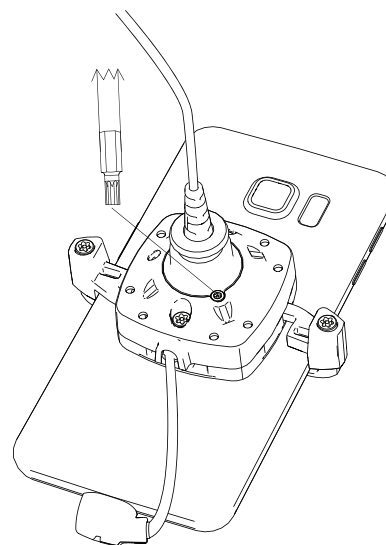

- 8** Plug power connector into device.

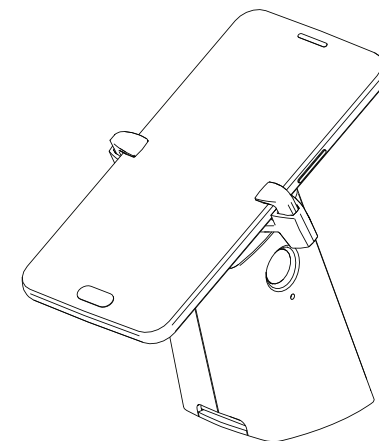

- 9** Pull sensor collar and cable from stand. Screw sensor collar to sensor. Confirm half-hole on sensor collar aligns with hole in sensor as shown.

- 10** Use T-8 bit to turn screw counter-clockwise to move screw into locking position (about 2 full rotations).

- 11** Place merchandise on stand. Final assembly should resemble image below.
