

BOSSTAG X18 With Pin MINI HIGH SECURITY TAG

 Security: High

 Detection Range: High

Small, compact and lightweight, this mini-security tag is perfect for those looking for a small lightweight pencil tag with a high level of security normally found in larger tags.

Boss X18 is only 55mm long yet comes with our high security XT pin lock mechanism. That means it can't be removed by other available high strength magnets.

XT Lock

Common Superlock and Standard Lock magnetic detachers are unable to release the pin from this tag. The high strength lock mechanism in the X18 renders weaker detachers that may be used by shoplifters useless. Our XT Lock detachers can open this tag and just about any other magnetic tag.

Compact and lightweight

RFID Ready

Smooth Pin Included

The tag accepts smooth or grooved pins. The smooth pin will not damage threads like grooved pins do.

Ink Pin

At any stage security can be dramatically upgraded by replacing the standard pin with the addition of our ink filled pin. Nothing stops a professional shoplifter like the 16mm round ink pin.

RFID

Compatible when used with our optional RFID pin. EAS security and RFID in one tag. Future proof tag – RFID ready.

Features

Minimum Order QTY	500 Units
Includes Pin	Yes
Ink Feature	No
Ink Pin Compatible	Yes
Pin Parking	No
