CROSSPOINT AM LABEL
DEACTIVATOR
UNIVERSAL MOUNTING

Security label deactivator for under or above counter use. This label deactivator deactivates all deactivatable **AM 58 kHz** security labels with optional deactivation analysis features and remote service options.

When linked to our CrossPoint Integrated Analytics platform, deactivation reports can be sent to your mailbox.

Antenna and Controller Box integrated into one part.

Deactivation changes an EAS label from an active state that alarms a working EAS tag system to an inactive state that will not alarm it. The deactivation unit is placed next to the point-of-sale equipment for quick and easy checkout.

Minimum Order QTY	1 Unit
