

Z50

Z50 from Neotag is simply the best security tag on the market.

Z50

Z50's unique design offers the best security available in tags, featuring a revolutionary multipolar locking mechanism, resistant to illicit removal by magnets, mechanical detachers and hooks. Only the Neotag Z Detacher can remove the Z50 tag.

Its low-profile and lightweight components are suitable for a range of applications including clothing and accessories.

Features

- Available with either AM or RF frequencies
- Multipolar lock resistant to magnetic and mechanical detachers
- Smooth pin will not damage garment threads
- Pin Park function for tag storage
- Compatible with existing detection systems
