

FOXTAG

Security Tag

 Security: High

 Detection Range: High

Foxtag is a revolutionary and high security solution that **reduces stock theft by up to 60%** when compared to traditional security tags.

Take back control

The solution to beat shoplifters has changed.

Implementing FoxTag is easy.
Simply remove your existing tags and replace with FoxTag.

Full ROI within 6-12 months, depending on volumes implemented.

Thieves move to other targets and neighboring stores.

Designed for the future.

FoxTag security tags address the specific needs of our modern retail customers, as they **can only be opened by a patented locking mechanism** and power-operated auto-mechanical detacher, which cannot be purchased online.

Drive down loss from in-store theft with the FoxTag unique features.

Anti-tamper spikes

Tamper-proof seal

Glass ink-filled ampoules

Pin park hole

Dissuasive design

Swivel pin

Displace criminals to easier targets.

Impossible for shoplifters to open FoxTag with bootleg detachers bought online.

With reduced theft, more stock is available to be sold.

Your store staff can focus on customer service instead of dealing with potential theft attempts.

Features

	FREQUENCY	WEIGHT
RF	8.2 MHz	15 g
AM	58 KHz	16 g
