

IR Cable Lock

Soft goods security tag

 Security: Very High  Detection Range: Very High

inVue

Magnet Invulnerability

InVue's Cable Lock stands alone in the market as the only solution not vulnerable to magnet defeats.

Designed for retailers who want to protect soft goods merchandise with an alarming lanyard lock, the small form factor, which cannot be defeated by magnets, matches the high end aesthetics of the merchandise it protects. It offers a quick "1-step" application making securing merchandise easy for sales associates.

Key Highlights

- Can be securely detached with the OneKEY or at the register with the OneKEY Detacher
- Elegant design matches high-end aesthetics of protected merchandise
- Ideal for a wide range of products in retail stores

OneKEY Ecosystem

Cable Lock utilizes the OneKEY and is part of InVue's exclusive OneKEY ecosystem™.
